Dear Sir:

Patent Application Information Retrieval (PAIR) system indicates that the U.S. Patent & Trademark Office has calculated a patent term adjustment of 434 days. However, Applicants believe that this calculation may be incorrect. Applicants note that the calculation on PAIR attributes delay to the PTO starting on 4/20/09 when Applicants filed their appeal brief. However, the appeal brief filed on 4/20/09 was determined to be non-compliant by the PTO. In response, Applicants filed an amended appeal brief on 6/25/09. Thus, the PTO's delay may have begun on 6/25/09 instead of 4/20/09.

Respectfully submitted,

/Richard E. Stanley, Jr./
